Pitt County Schools uses Destiny as its library book check out system. All PCS students have a log in to search book titles they may be interested in reading. Any materials checked out to the student can also be found under the Destiny log in. Below is how the student can access this information.

Steps for accessing Destiny:

1. Go to your child's school website (or the district website at www.pittschools.org and choose your child's school) - Top left corner of homepage
2. Once on the school's website, Click on **Our Resources** (top ribbon of homepage)
3. Click **Media Center**
4. On the Media Center webpage, click on **Destiny Catalog**

5. In the new pop up window the patron should log in using their PCS network network log in (same as how they log into their Chromebook) -
   a. User name is typically the first 6 letters of last name and first initial
      (example: LastnaF, or DoeJ)
   b. A automated generic PW
      Any student that does not remember their PW can ask his/her teacher.
6. Click the **Log In** button In the pop up window
7. Once logged in, the top left corner provides
      "Home", "Catalog", and "My Info"
      as the 3 options to navigate the user
      to what they want to do

   a. Click **My Info** to see any materials that are checked to your child
   b. Click **Catalog** to search book titles in your child's school collection

For additional questions or concerns, contact the school's media coordinator..
