# Step 3: Communicate

Use your chat box or an audio connection to instant message or speak with your tutor in the online classroom. You and the tutor may also use the interactive whiteboard to share work and ideas. *All activity in the classroom is recorded for review and quality control.* 

#### Step 4: Share a file

You can share many types of files with your tutor in the classroom. Upload an essay, your lab report, a PowerPoint presentation, and more. You and your tutor will be able to view the file together in the classroom.

## **Step 5: Use special tools**

The classroom includes a graphing calculator, text editor, and code editor that you can use when working on subject material that may require these special tools. Open them by using the buttons above the whiteboard.

### **Step 6: Rate and review your session**

After each session, be sure to let us know how we did! Complete the survey and share your comments. Then you'll have the option to play a video of your session and email or print the chat log and whiteboards.

#### Step 7: Submit your paper

Our **Drop-Off Review** service allows you to get expert help from a tutor without having to connect for a real-time session. Upload your writing assignment and get detailed feedback and explanations within 12 hours. Retrieve your tutor's completed review under **My Sessions**.

#### **Step 8: Practice for a test**

Use our practice quizzes to assess your level of knowledge and practice for upcoming tests or quizzes in math, science, and English. Take a quiz, review your results, and connect with a tutor to discuss any missed questions.
