## Pre-College Program

**The Brody RISE Pre-College Program** provides academic enrichment and health care exposure to learners from diverse backgrounds. In keeping with the mission of the **Brody School of Medicine**, Brody RISE works to increase the supply of primary-care physicians serving the state, improve the health status of citizens in eastern North Carolina, and enhance the access of disadvantaged and minority students to a medical education.

Brody RISE meets learners where they are, across the spectrum of academic accomplishment. Learners will RISE to a career in health care and research while increasing leadership skills and professionalism. This program serves students in eastern North Carolina. Students participate in exciting STEM-focused (science, technology, engineering and math) activities with a health care focus through the Brody RISE Pre-College Program's After-School, Saturday Academy and Summer Programs.

### Pre-College Program Components

#### After School

- Held at the Brody School of Medicine, Monday-Thursday
- Provides rigorous study assistance for participants
- Focuses on advanced-level coursework

#### Saturday Academy

- Held during 16 Saturdays at the Brody School of Medicine
- Intensive curricula in math, science, communications and medical career awareness

#### Partner Participation

- Partner Clubs and Committees

#### Academic and College Advising

- Course and college entrance advising
- Career awareness with role-model presenters

#### Academic Tutoring

- Peer, university, business and community persons tutoring in STEM

#### Recognition and Awards Ceremony

- Recognition of students' academic achievement at annual awards banquet

#### Leadership Retreat

- Leadership training during annual leadership retreat

#### Summer Program

- One- or two-week camp held on campus with intensive STEM, medical and laboratory research opportunities
